Technologies:

Languages:	Ruby, JavaScript, HTML5, CSS, SQL	**Databases**:	MongoDB, Mongoose, PostgreSQL
Frameworks:	Rails, Node.js, Express.js, Angular.js	**Testing**:	Rspec
Libraries:	jQuery, Bootstrap	**Other**:	GitHub, Heroku

Relevant Experience:

GENERAL ASSEMBLY
Web Development Immersive Student   (March 2016 – June 2016)

- Studied and became proficient in current programming languages such as JavaScript, Ruby, HTML5, and CSS, and leveraged these languages to build full-stack web applications. During group projects I demonstrated exceptional team work through initiating daily stand-ups, in-depth planning, and successful pair programming.

  App 1: *Pola-Snap –* Github l Heroku
  Pola-Snap is a Photo app that allows users to upload pictures. Users can archive their photographs, "like" other users' photos, comment on those photos, and enjoy searching for pictures by "tag name".
  Technologies: Ruby on Rails, Devise, PostgreSQL database, Cloudinary, Bootstrap
  Responsibilities: 3rd Party API integration, Database creation/management, Pair programming, Back-end development

  App 2: *Argos –* Github l Heroku
  Argos is a social media application for pet owners. Users can create a profile for their pets. With Argos users can add photos to their pet's profile, and utilize a calendar that allows them to set important dates to help organize busy schedules or upcoming events. Argos also features a news-feed that keeps the user up-to-date with followers.
  Technologies: Ruby on Rails, Bcrypt, PostgreSQL database, Bootstrap, Cloudinary
  Responsibilities: Wire-framing, Database creation, Front-end development, Back-end development, 3rd Party API integration

Other Professional Experience:

UNITED STATES POSTAL SERVICE
Letter Carrier   (February 2013 – January 2016)
- Worked closely with management to streamline operations and schedules for Amazon's Sunday Package Delivery Program.
- Maintained organized and effective communication between colleagues and management to ensure efficiency during Amazon's Sunday Package Delivery.
- Participated in the USPS's Safety Campaign as Safety Captain for the North Beach Location which included:
  - A. Attending monthly meetings with other Safety Captains, Supervisors, and Managers to discuss relevant safety issues.
  - B. Producing daily safety checklists and submitting them to management
  - C. Helping train new employees in areas of safety and health

---

Education:

General Assembly: Web Development Immersive – San Francisco   (March 2016 – June 2016)
